President's Message

President John Newlin

Call, Reach out, and Connect

Family comes first and that goes for our Lions family.

I just made a lot of calls to Lion friends. Some, I haven't talked to in many years.

Everyday life has been busy. Why did it take so long to reconnect?

In these crazy times, I encourage each of us to: Call, Reach out, and Connect.

Now is an opportunity to connect with an old classmate, follow up on that old friend, or maybe bury the hatchet with someone and just say Hi!

Enjoy that book or binge on that TV mini-series. Let's have some fun!

Can you name that Lion?

Who was a Past Yuba County sheriff?

Who has a famous 4-H daughter?

Who worked on the famous Air Force SR-71?

Who's nickname is Mustang Sally?

Who raises sheepdogs?

Who makes really cool knives?

Who raises chickens?

Who won the Ugly sweater contest?

Who was an Eagle Scout?

Who's last name means butterfly?

Who raises horses?

Who is a past Yuba county supervisor?

Who is the owner of the Territorial Dispatch newspaper?

Who is a Past Sacramento County sheriff?

Who deliver propane for Browns Gas?

Keeping each of you in my prayers!

I have thoroughly enjoyed being your Lions club bulletin editor for the past 3 years, but it is time for this tired goose to take a break. I am reaching out to all of you for a volunteer willing to take over this duty. It's not a difficult job, although sometimes time consuming. It is also a great way to learn more about the club and members. The only requirement is a computer and program such as Microsoft Publisher. (I'm sure there are other programs, but this is what I have used.) If you think you can't, you can! You can do hard things.

Lessons from The Geese

We can learn a lot about virtues from animals. Here is a wonderful illustration of the virtue of unity from geese. Next autumn, when you see geese heading south for the winter, flying in their familiar "V" formation, you might be interested in knowing why they fly that way. Science has learned that, as each bird flaps its wings, it creates an uplift for the bird immediately behind it. By flying in a "V" formation, the flock together gains over 70% more flying range than if each bird flew on its own. **Like the geese, people who share a common direction and a sense of community can get where they are going quicker and easier, because they are traveling on the thrust of one another.**

Whenever one goose falls out of formation, it suddenly feels the drag and resistance of trying to go it alone. It will quickly try to get back into formation to take advantage of the lifting power of the birds in front. **If we have as much sense as a goose, we will stay in formation with those who are headed the same way we are going.**

When the lead goose gets tired, it rotates back in the wing, and another goose takes over the point position. **It is important to take turns doing hard jobs!** The geese from behind honk constantly, as you've no doubt heard whenever a flock passes overhead. They do this to encourage those up front to keep up their speed. **An encouraging word goes a long way!**

Finally, when a goose gets sick and falls out of the formation, two geese follow it down to stay with it and protect it. They then launch out again, on their own or with another formation to catch up with the group. **If we have the sense of a goose we will stand by each other.**

March Crab Feed

I'm not sure who I have to thank for sneaking under the radar for allowing our March Crab Feed to happen; but I am very thankful and grateful. Thanks again to all my faithful workers and the 4Hers. Because of you all we were able to recognize a profit of over \$5,000. I pray for all of our Lions, community, and everyone to remain safe and virus free. This is a tough time for all of us and the world, let's keep everyone in our prayers.
